BALL MILL

5 liters

APPLICATIONS

- Ceramics

FEATURES:

The discontinuous ball mill is a machine designed to pulverize materials, widely used in the ceramic or laboratory industry. The mill can be mainly used for mixing and grinding materials when a very fine product is needed, and it can be used for grinding in dry or wet conditions.

Material: Steel housing and porcelain jar

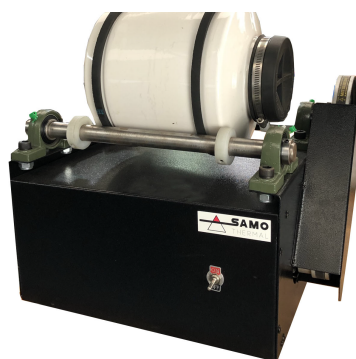

Paint: Electrostatic paint coating

External measurements:

Alto: 40 cm

Ancho: 50 cm

Profundidad: 38 cm

Warranty: 1 year against manufacturing defects.
Delivery time: 2 to 3 weeks.
